

# JOHN PAUL ALIÑO

---

## IT Graduate

YCF Fatima Village, Brgy San Antonio, Agdao | 09566317613 | johnpaul.alino@hcdc.edu.ph

### PROFILE:

---

Detail-oriented Information Technology student and working professional seeking an IT Internship where I can apply technical, analytical, and systems-based skills gained from academic projects and real-world industry experience, while continuing to develop expertise in software development and information systems.

### WORK EXPERIENCE:

---

Six Eleven Global Services

Medical Support Coordinator | 2022 – Present

- Coordinate patient flow by scheduling and managing appointments within the Practice Fusion EHR platform.
- Facilitate clinical visits by preparing and auditing necessary medical documentation to ensure provider readiness and regulatory compliance.
- Authorize patient access to specialized treatments by generating official certifications and prior authorizations for approved medications.
- Streamline administrative operations by maintaining accurate electronic health records and managing sensitive patient data with high confidentiality.

Customer Support Representative | 2019 – 2022

- Provide real-time technical troubleshooting for product issues via live chat to ensure immediate problem resolution.
- Deliver accurate logistics assistance by tracking shipments and providing proactive updates on delivery status to customers.
- Drive customer retention by negotiating personalized discounts and alternative solutions for users seeking product returns.

### PROJECT

---

CallEval – AI-Based Call Evaluation System (Capstone Project)

- Developed an AI-powered system for evaluating call center agent performance using automated speech transcription and diarization
- Implemented objective accuracy metrics such as Word Error Rate (WER) to assess transcription quality
- Focused on fairness, transparency, and explainability in AI-driven evaluation
- Tools used: Python, WhisperX, Web-based frontend

### EDUCATION:

---

2019 – Current | Holy Cross of Davao College

Bachelor of Science in Information Technology

### SKILLS:

---

- Programming Languages: Python, JavaScript
- Web Technologies: HTML, CSS, React, Vite
- Databases: SQLite
- Tools & Platforms: Git, GitHub, VS Code, Practice Fusion EHR
